## §493.1836

- (2) CMS may approve a plan for a laboratory to pay a civil money penalty, plus interest, over a period of up to one year from the original due date.
- (i) Collection and settlement—(1) Collection of penalty amounts. (i) The determined penalty amount may be deducted from any sums then or later owing by the United States to the laboratory subject to the penalty.
- (ii) Interest accrues on the unpaid balance of the penalty, beginning on the due date. Interest is computed at the rate specified in §405.378(d) of this chapter.
- (2) Settlement. CMS has authority to settle any case at any time before the ALJ issues a hearing decision.

[57 FR 7237, Feb. 28, 1992, as amended at 60 FR 20051, Apr. 24, 1995; 61 FR 63749, Dec. 2, 1996]

## §493.1836 State onsite monitoring.

- (a) Application. (1) CMS may require continuous or intermittent monitoring of a plan of correction by the State survey agency to ensure that the laboratory makes the improvements necessary to bring it into compliance with the condition level requirements. (The State monitor does not have management authority, that is, cannot hire or fire staff, obligate funds, or otherwise dictate how the laboratory operates. The monitor's responsibility is to oversee whether corrections are made.)
- (2) The laboratory must pay the costs of onsite monitoring by the State survey agency.
- (i) The costs are computed by multiplying the number of hours of onsite monitoring in the laboratory by the hourly rate negotiated by CMS and the State.
- (ii) The hourly rate includes salary, fringe benefits, travel, and other direct and indirect costs approved by CMS.
- (b) *Procedures*. Before imposing this sanction, CMS provides notice of sanction and opportunity to respond in accordance with §493.1810.
- (c) Duration of sanction. (1) If CMS imposes onsite monitoring, the sanction continues until CMS determines that the laboratory has the capability to ensure compliance with all condition level requirements.
- (2) If the laboratory does not correct all deficiencies within 12 months, and a

revisit indicates that deficiencies remain, CMS cancels the laboratory's approval for Medicare payment for its services and notifies the laboratory of its intent to suspend, limit, or revoke the laboratory's certificate of compliance, registration certificate, certificate of accreditation, or certificate for PPM procedures.

(3) If the laboratory still does not correct its deficiencies, the Medicare sanction continues until the suspension, limitation, or revocation of the laboratory's certificate of compliance, registration certificate, certificate of accreditation, or certificate for PPM procedures is effective.

[57 FR 7237, Feb. 28, 1992, as amended at 60 FR 20051, Apr. 24, 1995]

## § 493.1838 Training and technical assistance for unsuccessful participation in proficiency testing.

If a laboratory's participation in proficiency testing is unsuccessful, CMS may require the laboratory to undertake training of its personnel, or to obtain necessary technical assistance, or both, in order to meet the requirements of the proficiency testing program. This requirement is separate from the principal and alternative sanctions set forth in §§ 493.1806 and 493.1807.

## §493.1840 Suspension, limitation, or revocation of any type of CLIA certificate.

- (a) Adverse action based on actions of the laboratory's owner, operator or employees. CMS may initiate adverse action to suspend, limit or revoke any CLIA certificate if CMS finds that a laboratory's owner or operator or one of its employees has—
- (1) Been guilty of misrepresentation in obtaining a CLIA certificate;
- (2) Performed, or represented the laboratory as entitled to perform, a laboratory examination or other procedure that is not within a category of laboratory examinations or other procedures authorized by its CLIA certificate:
- (3) Failed to comply with the certificate requirements and performance standards;
- (4) Failed to comply with reasonable requests by CMS for any information
